Dear Hiring Manager,

I am a board-certified Consultant Gynecologic Oncologist with more than 20 years of progressive experience in clinical practice, healthcare leadership, medical education, research, and program development. My career has been dedicated to advancing women's health, improving cancer care outcomes, and leading initiatives that strengthen healthcare delivery systems.

Having served in leading healthcare institutions across Saudi Arabia and Canada, I have developed extensive expertise in gynecologic oncology, minimally invasive surgery, multidisciplinary cancer management, fellowship training, clinical governance, and healthcare operations. My experience combines clinical excellence with strategic leadership, enabling me to contribute effectively to organizations seeking innovation, growth, and high-quality patient care.

Value Offered

I offer a unique combination of:

- **Advanced expertise in Gynecologic Oncology and Women's Health**
- **Proven leadership in healthcare program development and implementation**
- **Extensive experience in multidisciplinary team management**
- **Strong background in clinical research and academic medicine**
- **Fellowship and physician training leadership experience**
- **Healthcare quality improvement and patient safety expertise**
- **Strategic planning and organizational development capabilities**
- **Experience leading regional healthcare initiatives and cancer prevention programs**
- **International clinical and academic exposure**

Key Career Achievements

Successfully managed complex gynecologic oncology cases and performed advanced oncologic surgical procedures throughout my career.

Led the establishment and implementation of the Cervical Cancer Screening Program within the Eastern Province healthcare cluster.

Served as Program Director for a Gynecologic Oncology Fellowship Program, contributing to physician training and professional development.

Directed multidisciplinary tumor board discussions and clinical decision-making processes.

Contributed to scientific research, peer-reviewed publications, and international medical conferences.

Participated in healthcare transformation initiatives focused on improving patient outcomes and access to specialized care.

Served on scientific committees and professional boards dedicated to advancing gynecologic oncology and women's health.

Leadership Philosophy

My leadership approach is centered on clinical excellence, collaboration, innovation, accountability, and continuous improvement. I believe in fostering high-performing multidisciplinary teams, promoting evidence-based practice, and creating healthcare environments that prioritize patient outcomes, professional development, and operational excellence.

Executive Objective

I am seeking opportunities to contribute my expertise in a senior clinical or executive leadership capacity where I can support organizational growth, enhance healthcare quality, strengthen academic and research initiatives, and advance women's health services.

My background aligns particularly well with positions such as:

- **Chief Medical Officer (CMO)**
- **Medical Director**
- **Director of Women's Health Services**
- **Director of Oncology Services**
- **Clinical Program Director**
- **Healthcare Executive Leader**
- **Consultant Gynecologic Oncologist**
- **Academic Medical Leader**

Closing Statement

Throughout my career, I have remained committed to delivering exceptional patient care, advancing medical education, supporting research innovation, and leading programs that create measurable improvements in healthcare outcomes. I look forward to contributing my experience, leadership, and clinical expertise to an organization dedicated to excellence, innovation, and patient-centered care.

Yours Sincerely,

Dr. Sarah Al-Rubaish, MD, MSc, FRCSC
